

Unemployment and benefits data sheet – June 2026

Summary – In May 2026, 3.0% of Rushmoor’s working age population were claiming out-of-work benefits principally for the reason of being unemployed.

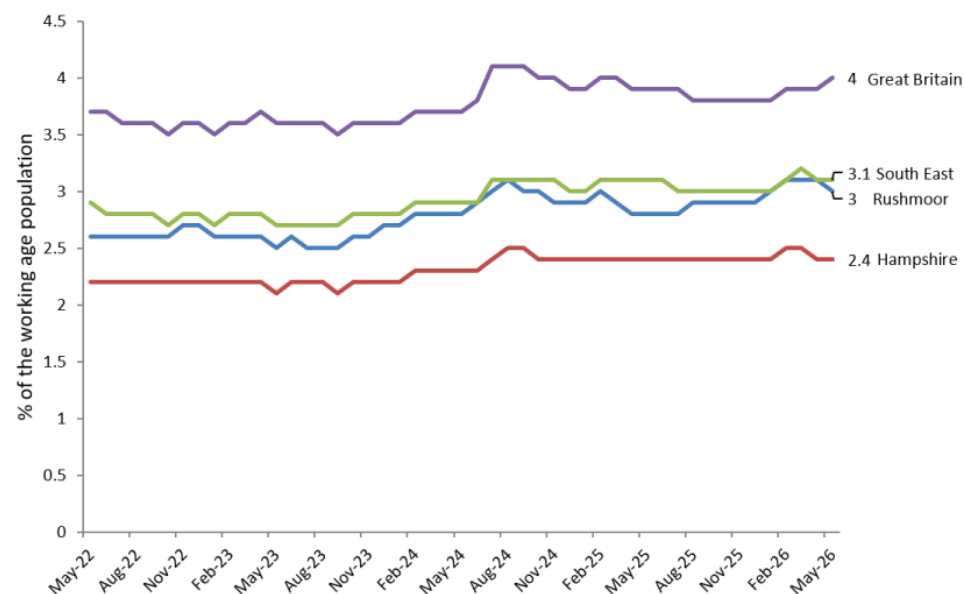

Claimant Count analysis

“The Claimant Count is the number of people claiming benefit principally for the reason of being unemployed. This is measured by combining the number of people claiming Jobseeker’s Allowance (JSA) and National Insurance credits with the number of people receiving Universal Credit principally for the reason of being unemployed”

In May 2026 there were 2,115 Rushmoor residents claiming out-of-work benefits principally for the reason of being unemployed, a small reduction from 2,135 in April 2026. Overall, 3.0% of Rushmoor’s working age population (16-64) were claiming benefits for the principally reason of being unemployed. This was a lower percentage than Great Britain (4.0%) and the South East (3.1%) but a higher percentage than Hampshire (2.4%).

The following chart sets out the claimants as a percentage of the working age population, it shows a recent increase for Rushmoor, Hampshire and the South East

Claimant Count

Universal Credit

Universal Credit is a benefit for people on a low income or out of work, who are below pension age. It began being rolled out in Rushmoor in February 2016 and will replace most means-tested benefits and tax credits and will include payments for children and housing costs.

The following shows the number of people on Universal Credit in Rushmoor at the end of each financial quarter since the introduction of

Universal Credit. Due to the pandemic there was a sharp rise in people on Universal Credit between March 2020 and June 2020.

Housing and Council Tax Benefit take up

Rushmoor Borough Council is responsible for Council Tax Support (CTS) and local Housing Allowance (this is now covered by Universal Credit for those of working age). The benefit caseload was 5,551 in March 2025.

The following table shows the number of claims has been declining over the past four years, due to people moving over to Universal Credit. However, whilst local Housing Allowance claims decrease, there has been a rise in those claiming Council Tax Support

Rushmoor benefit caseload

Model based unemployment

Not everyone who is unemployed is entitled to claim out of work benefits, the Office for National Statistics (ONS) Annual Population Survey estimates the percentage of the working age population who are unemployed. It should be noted that this is model based and the ONS Annual Population Survey base the data on a small sample of people in the area.

This data estimates that there are 1,900 people unemployed in Rushmoor (3.3% of the economically active population).

The following table shows the unemployment rate in Rushmoor, the South East and Great Britain. Rushmoor has a lower rate than Great Britain and the South East.

January 2025-December 2025	Rushmoor	South East	Great Britain
Unemployed (Model Based)	3.3% (1,900)	3.6%	4.5%
